ENCLOSURE: Annotated photograph of Mielec Aircraft Factory

REQUIREMENT RR/HTA/E/RI/57: Determine heights of Mielec Aircraft Factory buildings.

REMARKS: Heights of only a few of the buildings comprising the Mielec Aircraft Factory could be measured from available ground photos. The angle of view of the various ground photos was determined, utilizing building dimensions from P.I. Memorandum HTA-M9-56. The scales of the photos were then computed and the building heights measured by photogrammetric means. The heights marked with an asterisk are estimates only, having been determined by relative comparison with measured heights.
